Background

The Americans with Disabilities Act (ADA) provides comprehensive civil rights protections to persons with disabilities in the areas of employment, state and local government services, and access to public accommodations, transportation, telecommunications, and other public facilities, including sidewalks and curb ramps.

There are five statutory titles to the ADA. This document focuses on reporting ACHD efforts regarding Title II. Title II prohibits state and local governments from discriminating against persons with disabilities by requiring all programs, services, and activities to be accessible to persons with disabilities. It requires a public entity to evaluate its services, programs, policies, practices, and facilities to determine whether they comply with the nondiscrimination requirements of the ADA. The ADA requires preparation of a transition plan to describe any structural or physical changes required to make programs accessible. The transition plan outlines the methods by which physical or structural changes will be made to comply with the nondiscrimination policies described in Title II.

In an effort initiated by ACHD, with a primary emphasis on addressing federal pedestrian planning guidelines and the regulatory requirements of the ADA, the ACHD Commission adopted the Pedestrian Bicycle Transition Plan (PBTP) on December 14, 2005. The PBTP was reviewed, updated, and adopted by ACHD Commission on December 12, 2018. The ACHD ADA Transition Plan is intended to accommodate the most recent ADA policies and rules to aid in providing a comprehensive program that enhance the Ada County urban area pedestrian experience. Commensurate with the ADA requirements for inventory and self-evaluation, ACHD targeted a significant portion of the overall planning effort to complete a walking inventory of the entire street-side pedestrian system within the Ada County urban areas.

ACHD has jurisdiction and responsibility for all public roads and streets within Ada County, Idaho, except state highways and interstate freeways. Under Idaho law, pedestrian (typically sidewalks) and bicycle system components of most public streets also fall within ACHD's jurisdiction.

In 2004-2005, more than 2,800 miles of existing and missing sidewalks and 19,300 street corners (with 15,500 curb ramps) were inventoried and assessed as part of ACHD's self-evaluation. Documenting the location, type, and condition of sidewalks and curb ramps is an important step in the pedestrian planning effort. A full inventory of missing sidewalks helps identify the critical "gaps" to fill.

In addition to establishing the baseline data set, ACHD established standard operating procedures to ensure that the Geographic Information System (GIS) database for sidewalk and curb ramps remains current as new facilities are installed, and substandard facilities are repaired.

Purpose and Methodology

ACHD works diligently to plan, develop, and construct improvements to the pedestrian system that bring the sidewalks, curb ramps, and pedestrian signals in Ada County into compliance with the ADA. The primary purpose of this Annual Report is to describe the improvements to the pedestrian system that occurred in 2021. Additional sections describe the remediation of other ADA barriers.

Methods

ACHD maintains a comprehensive pedestrian facility GIS database. The database is a record of information about the physical condition of features and criteria necessary for updating the features, which informs project prioritization and scheduling. As projects are completed and repairs are made to the pedestrian right-of-way in Ada County, ACHD catalogs the new improvements and updates the database to reflect these changes.

Additionally, ACHD has a formal grievance procedure regarding ADA Title II complaints from citizens. This includes submission of a complaint, often through writing, and subsequent meetings between the complainant and the ACHD ADA Coordinator to reach a solution. Projects undertaken in response to complaints are classified as high priorities. During 2021, ACHD received 13 (thirteen) grievances regarding the public right-of-way, programs, services, and buildings.

New Right-of-Way Facilities

ACHD is constantly expanding the length of sidewalks and number of curb ramps in Ada County and its six cities. The new sidewalks and curb ramps are primarily constructed through one of the following programs or activities:

- Large scale ACHD “Capital Projects” such as roadway expansion and overlays;
- Smaller scale ACHD “Community Programs Projects”;
- Projects such as sidewalk construction, safe routes to school projects, and curb ramps;
- Private development through residential and commercial subdivisions; and
- Miscellaneous commercial and residential building permits.

ACHD expends significant amounts of federal and local funds to construct new improvements to the pedestrian system each year. In addition to sidewalks and curb ramps that are constructed with ACHD Capital Projects (i.e. roadway widening and overlays), the ACHD Commission dedicated five percent of ACHD’s annual capital budget to pedestrian specific projects (not associated with a specific roadway project). In 2009, Ada County voters also approved an increase in vehicle registration fees to fund pedestrian projects near schools. These efforts by ACHD significantly exceed what is required by the Federal Highway Administration’s “Safe Routes to School Program.”

In addition, private development through subdivisions and new development also contribute to the expansion of ACHD’s pedestrian network. ACHD works closely with developers to ensure that the pedestrian facilities constructed with private funds are ADA compliant. ACHD inspectors visually inspect and sign off on all improvements in the public prior to official acceptance of the improvements.

Facility Maintenance

ACHD has a Sidewalk Repair Program that focuses on repairing or reconstructing substandard sidewalks and curb ramps. This is ACHD’s programmatic approach to repairing and replacing substandard pedestrian facilities. This program also repairs or replaces sidewalk and curb ramps based on citizen concerns/requests.

2021 System Improvements: Repairs

Sidewalks

In 2021, ACHD repaired over 36 miles of substandard sidewalks. Table 1 below illustrates the total mileage of sidewalk repairs for 2021. The total estimated investment in these sidewalk projects for 2021 is approximately \$5.35 million.

ACHD considers a priority ranking system to determine a schedule for repairing and replacing sidewalks. Priority is determined through consideration of both the location of the element and the physical condition of the element; elements receiving citizen complaints are considered high priority. Further information about the ranking system, project details, and maps for sidewalks can be found in Appendix A. Through Capital Projects and the Safe Sidewalk Program, a comprehensive assessment of all pedestrian facilities, including sidewalks and curb ramps, is conducted to identify deficiencies in the project area.

Table 1: ACHD-Funded and Completed Sidewalk Repair Projects in 2021

Rank	Sidewalk Miles	Percent Remaining Barriers
High Priority	4.3	9.6%
Medium Priority	7.1	3.4%
Low Priority	25.4	3.5%
Total	36.8	3.8%

Curb Ramps

Through its maintenance activities and sidewalk repair program, ACHD replaced or upgraded 137 pedestrian ramps to bring them into compliance with current ADA standards, as shown in Table 2. The total estimated investment in new and repaired/replaced curb ramps for 2021 is approximately \$246,600.00. Further information about the ranking system, project details, and maps for curb ramps can be found in Appendix B.

Table 2: ACHD-Funded and Completed Curb Ramp Repair Projects in 2021

Rank	Curb Ramp Count	Percent Remaining Barriers
High Priority	17	1.0%
Medium Priority	14	0.8%
Low Priority	106	1.1%
Total	137	1.0%

During the 2019 ADA Transition Plan adoption, ACHD Commission directed the completion of a diagonal curb ramp and a pedestrian pushbutton inventory assessment. Following Commission

direction, in FY2020, ACHD assessed the diagonal curb ramp inventory which consisted of 6,338 curb ramps previously identified as no deficiencies identified. The finding re-categorized the curb ramps into 516 high priority, 995 medium priority, 2,120 low priority and 2,707 with no deficiencies identified. As a result, the curb ramps inventory identified in the 2019 ADA Transition Plan was updated. The updated table can be found in the Sidewalk and Curb Ramps Updated Summary Tables section.

2021 System Improvements: New Construction

Sidewalks and Curb Ramps

ACHD also relies on private development to improve the compliance status of the pedestrian right-of-way in Ada County. In 2021, private developers installed 90.5 miles of new sidewalks in Ada County. During the same period, private development installed a total of 1725 pedestrian ramps across Ada County. ACHD ensures, through inspections, that design and construction of sidewalk and curb ramp meets ADA requirement and obligations under Title II for new construction. A summary of the new infrastructure is shown below in Table 3.

Table 3: Combined New Sidewalk and New Curb Ramp Completion for 2021

Project Owner	Sidewalks Miles	Curb Ramp Count
Completed by ACHD	4.8	182
Completed by Private	90.5	1,725
Total	95.3	1,907

Pedestrian Signals

During FY20, ACHD completed its first ADA pedestrian signals inventory. The new inventory follows the same categorizations adopted through the 2019 ADA Transition Plan. The four classifications for prioritization are high priority, medium priority, low priority, and no deficiencies identified priority as determined by ACHD’s ADA Advisory Committee.

In 2021, 2,290 pedestrian signals were inventoried and categorized as follows: 822 high priority, 382 medium priority, 485 low priority, and 601 No Deficiencies Identified. New Accessible Pedestrian Signals (APS) were installed at 19 locations in 2021, and 15 existing locations had Accessible Pedestrian Signals (APS) updated. Further project details and summary of the 2020 ADA Inventory Assessment can be found in Appendix C.

Table 4: Pedestrian Signal Updates and New Construction for 2021

2021 Completed Projects	Repaired	New	Total
Accessible Pedestrian Signals	15	19	34

Sidewalk and Curb Ramps Updated Summary Tables

Tables 5 through 8 summarize the assigned barrier removal ranks for ACHD’s sidewalk and curb ramp facilities including the assessment of the curb ramps and projects completed in 2020.

Table 5: Remaining Sidewalk Barrier Summary by Rank

Rank	Total Miles	Percent Total
High	44.7	1.5%
Medium	208.8	7.2%
Low	724.4	25.10%
No Deficiency	1,918.5	66.2%
Total	2,896.4	100%

Table 6: Remaining Sidewalk Barrier Summary and Transition Plan Phasing Schedule

Rank	Category	Priority	Total Miles	Percent Total	Schedule
High	1	A1	0.9	0.0%	1-10
High	1	B1	12.1	0.4%	1-10

No Deficiency	5	E5	9,366	28.5%	N/A
No Deficiency	5	New	4,460	13.6%	N/A

Conclusion

During 2021, ACHD repaired and installed 319 curb ramps and 41.6 miles of sidewalk. Combined with private development, 2,044 curb ramps and 132.1 miles of sidewalk were repaired and installed. Ada County now has 60.0 percent compliant curb ramps and 66.2 percent compliant sidewalks. New Accessible Pedestrian Signals (APS) were installed at 19 locations in 2021, and 15 existing locations had Accessible Pedestrian Signals (APS) updated.

Table 9: Summary of Progress of Sidewalk and Curb Ramp Facilities

Project Status	2020 Sidewalks	2020 Curb Ramps	2021 Sidewalks	2021 Curb Ramps
Projects completed	71.1 miles	1,227	132.1 miles	2,044
Percent of total inventory that has no deficiencies identified	63.8%	57.8%	66.2%	60.0%

4	No Deficiencies Identified	A4	B4	C4	D4	E4

Note on Table A1: The priorities listed under columns B, C, D, and E are specified under title II 28 CFR § 35.150 (d).

Sidewalk Barrier Descriptions

Category 1:

- Sidewalk built prior to 2010 and the width is less than 48 inches.
- The sidewalk is built prior to 2010 and heaving and cracking is noted as significant.
- The sidewalk condition is considered poor.

Category 2:

- The sidewalk is built prior to 2010 and heaving and cracking is noted as moderate.
- The sidewalk is constructed of asphalt.
- The sidewalk condition is considered average.
- The sidewalk is built prior to 2010 and the number of vertical protrusions along a block is five or more.
- The sidewalk is built prior to 2010 and the number of driveway entries that exceeds two percent cross slope is four or more driveways.

Category 3:

- The sidewalk is built prior to 2010 and heaving and cracking is noted as minor.
- The sidewalk is built prior to 2010 and the number of vertical protrusions along a block is one to four.
- The sidewalk is built prior to 2010 and the number of driveway entries that exceeds two percent cross slope is one to three driveways.

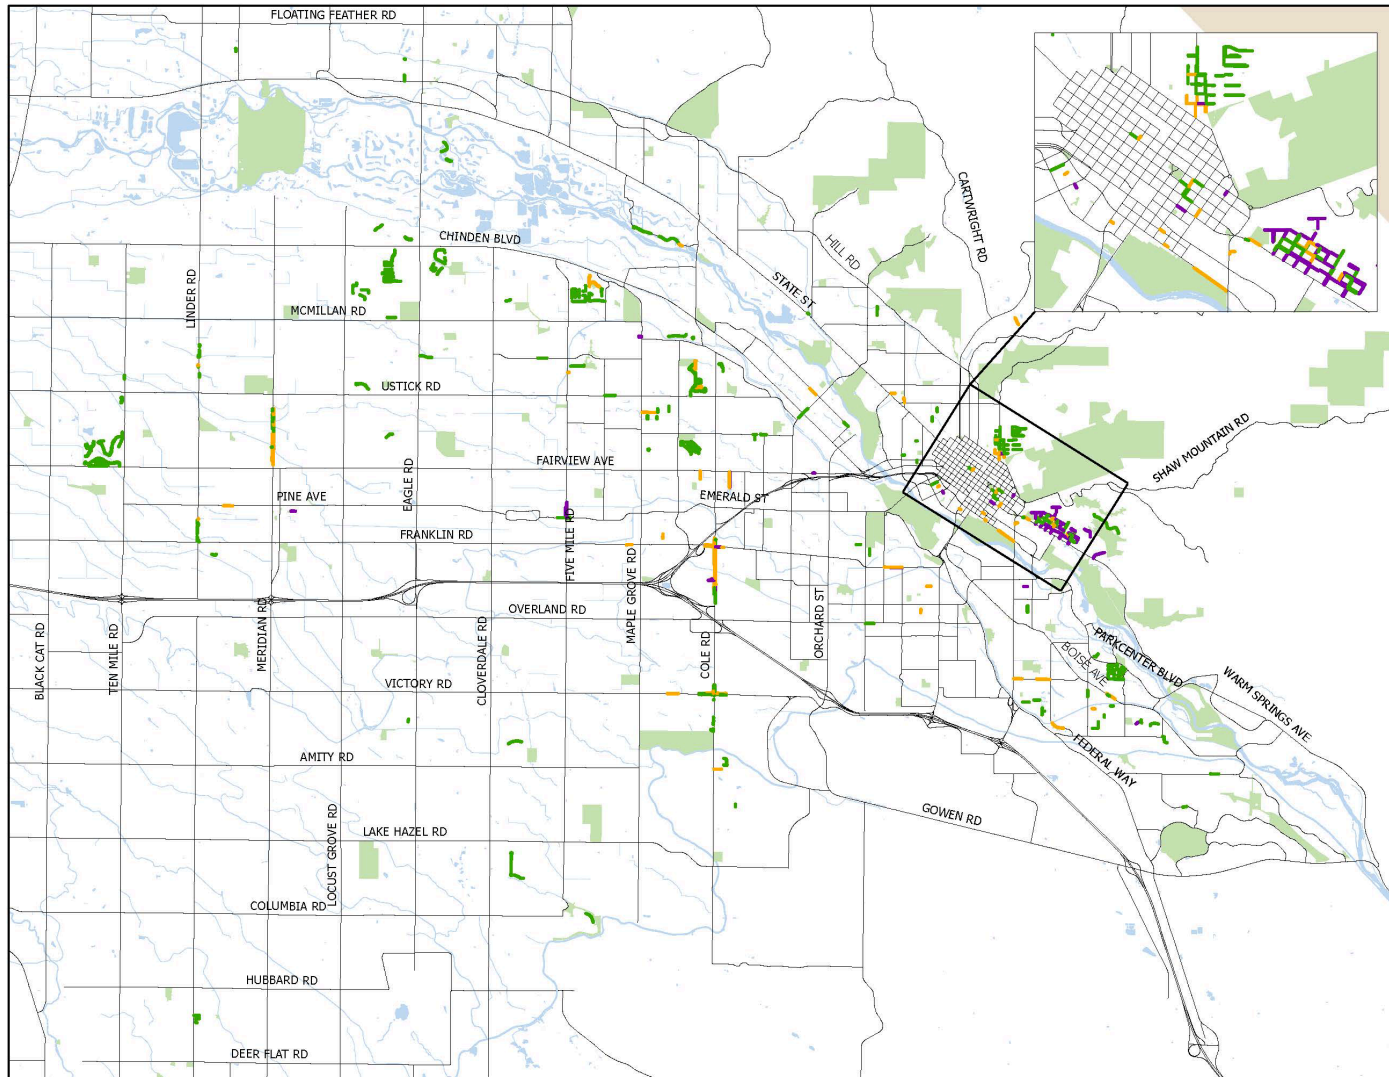

Category 4:

- Sidewalk built 2010 or later and/or no deficiencies identified.

Appendix B: Curb Ramps Matrix, Description, Projects Map and Projects Completed

Table B1: Curb Ramp Priority Matrix - ADA 35.150(d) Geospatial Proximity Priorities

Priorities (Category)	Priority Description	A: Location of Citizen ADA Complaint and/or Request	B: Location Serving Government Offices and Public Facilities	C: Location Serving Transportation	D: Location Serving Commercial Districts, Employers	E: Location Serving Other Areas
1	Refer to Category 1 Description	A1: High Priority	B1: High Priority	C1: High Priority	D1: High Priority	E1: Low Priority
2	Refer to Category 2 Description	A2: High Priority	B2: High Priority	C2: High Priority	D2: Medium Priority	E2: Low Priority
3	Refer to Category 3 Description	A3: High Priority	B3: Medium Priority	C3: Medium Priority	D3: Medium Priority	E3: Low Priority
5	Refer to Category 4 Description	A4: High Priority	B4: Low Priority	C4: Low Priority	D4: Low Priority	E4: Low Priority
5	No Deficiencies Identified	A5	B5	C5	D5	E5

Note on Table B1: The priorities listed under columns B, C, D, and E are specified under title II 28 CFR § 35.150 (d).

Curb Ramp Barrier Descriptions

Category 1:

- The curb ramp is constructed with asphalt.
- The curb ramp condition is very poor.

Category 2:

- The curb ramp condition is below average.
- Top landing is less than three-by-three feet or there is no top landing.
- Width of ramp is less than 36 inches.
- Curb ramp is built prior to 2010 and is not located within marked crossings (when present).
- Curb ramp is built prior to 2010 and the bottom landing width is less than 36 inches.
- Running slope of ramp exceeds 8.33 percent.

Category 3:

- The curb ramp condition is average.
- Top landing is 36 to 47 inches.
- Width of ramp is 36 to 47 inches.
- Curb ramp is built prior to 2010 and the bottom landing width is 36 to 47 inches.
- Curb ramp is built prior to 2010 and the bottom landing slope is greater than two percent.

Category 4:

- Cross slope of ramp exceeds two percent
- Curb ramp is built prior to 2010 and flared sides (if applicable) exceed 10 percent.
- Curb ramp is built prior to 2010 where the bottom of the ramp is not flush.

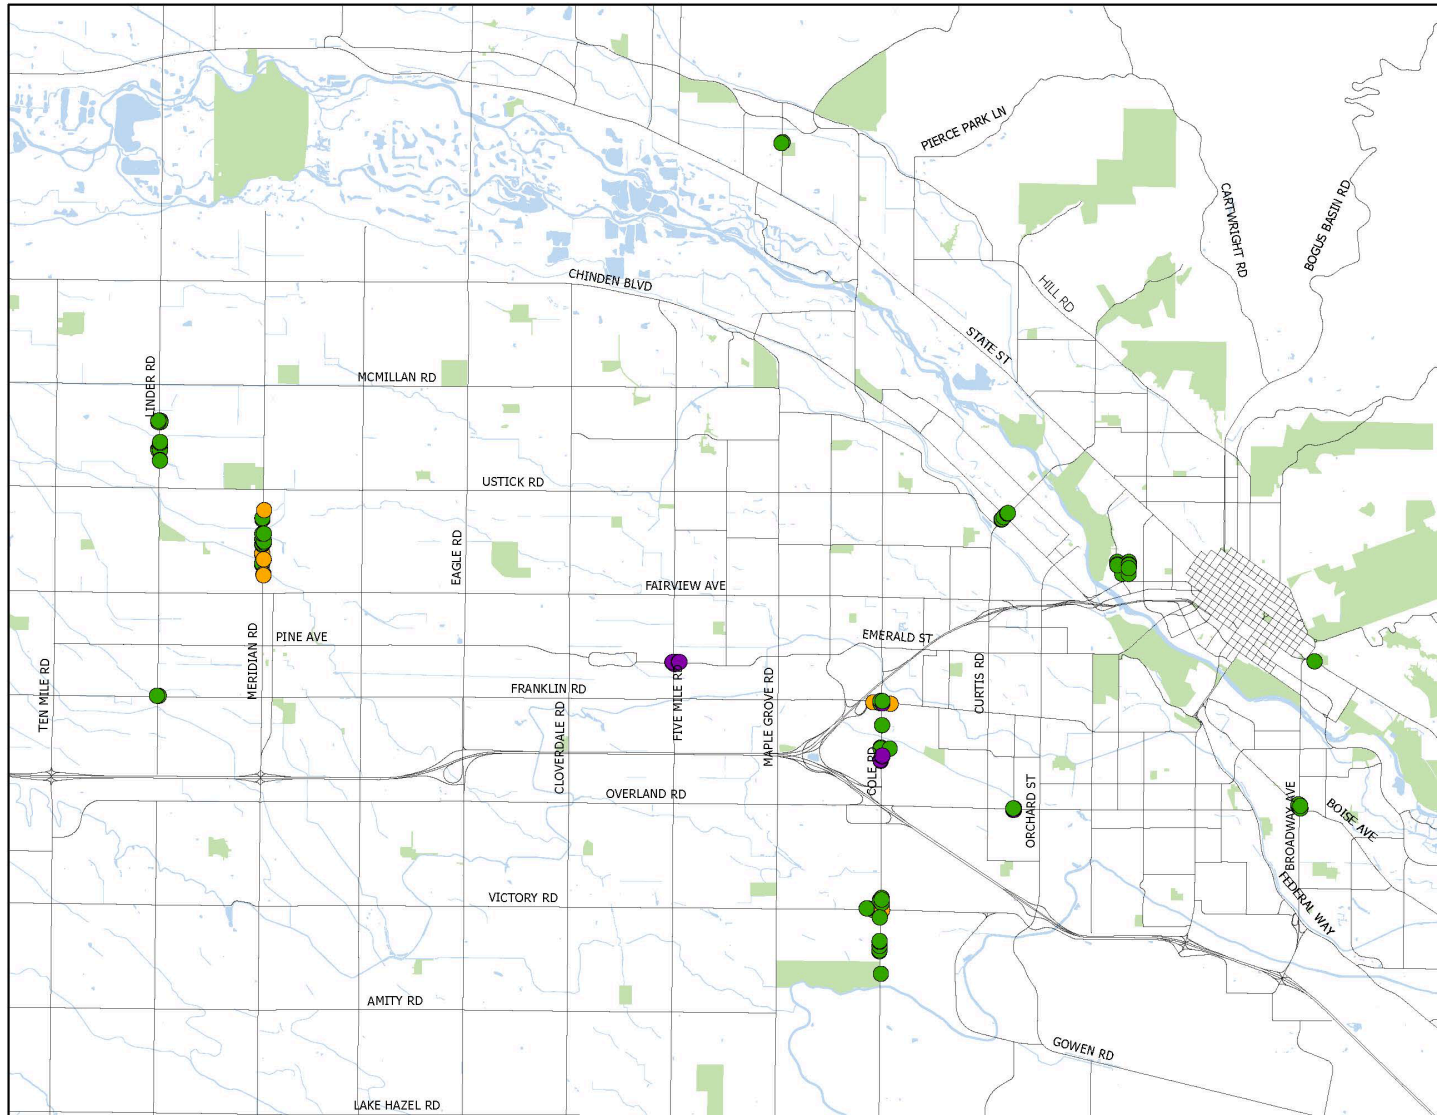

Category 5:

- Curb ramp built 2010 or later and/or no deficiencies identified

**Ada County Highway District
ADA Transition Plan**

**Appendix B:
Curb Ramps Replaced or
Repaired by ACHD in 2021**

- Pedestrian Ramp Priority**
- High
 - Medium
 - Low
- Major Roadways
 - Parks and Green Spaces
 - Water Features

Appendix C: Pedestrian Pushbuttons Projects Map and Projects Completed

**Ada County Highway District
ADA Transition Plan**

**Appendix C:
Pedestrian Pushbuttons
Installed or Repaired by
ACHD in 2021**

-  New Pedestrian Signal Locations
-  Major Roadways
-  Parks and Green Spaces
-  Water Features
-  County Boundary

Table C1: 2021 Pedestrian Pushbutton Repairs and Installments

Installation Count	Location	Jurisdiction	Description
1	Intersection of 8 th St and Bannock St	Boise	Install Accessible Pedestrian Signals
2	Intersection of Linder Rd and Deer Flat Rd	Kuna	Install Accessible Pedestrian Signals
3	Intersection of Eagle Rd and Kingsbridge Dr	Meridian	Install a Pedestrian Hybrid Beacon
4	Intersection of Curtis Rd and Fairview Ave	Boise	Install Accessible Pedestrian Signals
5	Intersection of Franklin Rd and Liberty St	Boise	Install a Pedestrian Hybrid Beacon
6	Intersection of Linder Rd and Plaza Shops Dr	Meridian	Install Accessible Pedestrian Signals
7	Intersection of Five Mile Rd and Smoke Ranch Dr	Boise	Install a Pedestrian Hybrid Beacon
8	Intersection of Kootenai St and Robert St	Boise	Install a Rectangular Rapid Flashing Beacon
9	Intersection of Chinden Blvd (US 20/26) and Veterans Memorial Parkway	Garden City	Install Accessible Pedestrian Signals
10	Intersection of Capital Blvd and University Dr	Boise	Install Accessible Pedestrian Signals
11	Intersection of Chinden Blvd (US 20/26) and Linder Rd	Meridian	Install Accessible Pedestrian Signals
12	Intersection of Chinden Blvd (US 20/26) and Fox Run Ave	Meridian	Install Accessible Pedestrian Signals
13	Intersection of Bogart Ln and Sloan St	Boise	Install a Rectangular Rapid Flashing Beacon
14	Intersection of Chinden Blvd (US 20/26) and Meridian Rd	Meridian	Install Accessible Pedestrian Signals
15	Intersection of Ustick Rd and Black Cat Rd	Meridian	Install Accessible Pedestrian Signals
16	Intersection of Vista Ave and Nez Perce St	Boise	Install a Pedestrian Hybrid Beacon
17	Intersection of Amity Rd and Silvermaple Ave	Boise	Install Accessible Pedestrian Signals
18	Milwaukee St at Capital High School	Boise	Install a Rectangular Rapid Flashing Beacon
19	Cassia St at Troxel Dr (Borah High School)	Boise	Install a Rectangular Rapid Flashing Beacon
20	Milwaukee St at Valley View Elementary School	Boise	Install a Pedestrian Hybrid Beacon

Installation Count	Location	Jurisdiction	Description
21	NW 8 th St at Meridian Middle School	Meridian	Install a Rectangular Rapid Flashing Beacon
22	Maple Grove Rd at Maple Grove Elementary	Boise	Install a Pedestrian Hybrid Beacon
23	Allumbaugh St at Darigold	Boise	Install a Rectangular Rapid Flashing Beacon
24	Linder Rd at Franklin Rd	Meridian	Install Accessible Pedestrian Signals
25	Eagle Rd at Amity Rd Roundabout	Meridian	Install Rectangular Rapid Flashing Beacons
26	Eagle Rd at State St (Hwy 44)	Eagle	Install Accessible Pedestrian Signals
27	State St at Highbrook Way	Star	Install Accessible Pedestrian Signals
28	Franklin Rd at Benchmark Ave	Meridian	Install Accessible Pedestrian Signals
29	Fairview Ave at Milwaukee St	Boise	Install Accessible Pedestrian Signals
30	Boise Ave at Manitou Ave	Boise	Install a Rectangular Rapid Flashing Beacon
31	State St at Ellens Ferry Dr	Garden City	Install Accessible Pedestrian Signals
32	Meridian Rd at Director St	Meridian	Install a Pedestrian Hybrid Beacon
33	Roosevelt St at Cassia St	Boise	Install a Rectangular Rapid Flashing Beacon
34	Maple Grove Rd at Targee St	Boise	Install a Pedestrian Hybrid Beacon
